## PART I

### ITEM 1. BUSINESS

#### Overview

Half Radiation LLC (the "Company," "we," "us," or "our") is a New Mexico limited liability company formed to operate knob.monster, a browser-native cloud System Exclusive (SysEx) librarian and patch management platform for vintage synthesizers manufactured primarily in the 1980s and 1990s. The Company's mission is to eliminate legacy desktop MIDI utilities, obsolete USB drivers, and the existential dread associated with CR2032 battery failure.

We commenced commercial operations on May 31, 2026, upon acquisition of the knob.monster domain name for an amount management describes as "way too much money" and deployment of Web MIDI decoders for the Yamaha DX7, Roland Juno-106, Korg M1, Roland Jupiter-6, and Casio CZ-101.

#### Products and Services

knob.monster enables users to connect class-compliant USB-to-MIDI interfaces directly to supported web browsers (Google Chrome, Microsoft Edge, Opera) without installing desktop software. Users may dump, store, search, and restore patch banks via the Web MIDI API. The Company offers two lifetime license tiers:

| Plan                   | Price (USD) | License scope | Commercial use          |
|------------------------|-------------|---------------|-------------------------|
| knob.monster+ Personal | \$39.00     | Lifetime      | Non-commercial only     |
| knob.monster+ Studio   | \$399.00    | Lifetime      | One commercial location |

Regional pricing is available in EUR, GBP, CAD, and AUD through Stripe price localization. Business email domains are routed to the Studio tier at checkout pursuant to the Company's license compliance policy.

#### Competition

Primary competitors include MIDI-OX (Windows, last meaningfully updated circa 2011), Snoize (macOS, discontinued), SoundQuest/MIDI Quest (hundreds of dollars), and the user's own denial that the internal battery has died. Management believes the Company's browser-native architecture, dark-mode aesthetic, and willingness to publish this document constitute differentiated competitive advantages.

#### Customers and Revenue Concentration

During the period ended June 28, 2026, the Company recorded 1 successful charge(s) totaling \$60.00 in gross revenue. Customer concentration is extreme: one charge represents 100% of period revenue. Management celebrates this milestone as proof of concept and notes that ten paying customers would require discontinuation of the term "goblins" in internal source code.

#### Technology Infrastructure

The platform is built on FastAPI, PostgreSQL, Stripe, Resend SMTP, PostHog analytics, and Tailwind CSS delivered via CDN. SysEx parsers are maintained in Python. The Company has not experienced material downtime except during deployments performed while eating discount instant noodles.

#### Intellectual Property

The Company owns the knob.monster trademark, logo, pixel-font aesthetic, and proprietary SysEx parsing logic. The Company does not own the Yamaha DX7, Roland Juno-106, or any deceased firmware engineer's soul.

#### Employees

As of June 28, 2026, the Company employed one (1) human, zero (0) contractors, and approximately forty-seven (47) Large Language Models consulted in an advisory capacity without compensation.

## ITEM 1A. RISK FACTORS

An investment in Half Radiation LLC is impossible because we have not issued securities. If we had, the following risks would keep you awake during a tape recall:

**CR2032 Battery Risk.** Vintage synthesizer internal batteries die without warning, causing memory loss and emotional damage. Our product mitigates but cannot reverse dead batteries already deceased.

**MIDI-OX Persistence Risk.** MIDI-OX remains installed on Windows XP machines worldwide. Users may continue using free abandonware instead of paying \$39.

**Web MIDI Browser Risk.** Apple Safari and Mozilla Firefox do not support Web MIDI. Users on these browsers may believe the product is broken when the browser is.

**Stripe Fee Risk.** Payment processing fees represented 4.2% of gross revenue during the period. At current scale, each transaction is materially impacted.

**Single-Customer Risk.** 100% revenue concentration in one charge creates going-concern sensitivity to chargebacks, refunds, and the customer's continued ownership of a synthesizer.

**Payout Delay Risk.** As of period end, \$0.00 had been paid out to the Company's bank account. Cash remains in Stripe balance, subject to platform risk.

**Synth Nerd Market Risk.** Total addressable market is bounded by the intersection of 'owns vintage synth' and 'trusts cloud backup.' Management estimates this is not Coupang.

**Regulatory Risk.** SysEx data is not personally identifiable unless your patch names contain your Social Security number, which we discourage.

**Carbon Neutrality Risk.** The Company claims 100% offset via vintage-analog carbon credits certified by absolutely nobody. This may not satisfy the SEC, the EPA, or your mom.

**AI Hallucination Risk.** FAQ chat may occasionally answer questions using OpenRouter/Gemini. Answers are grounded in FAQ knowledge base but management cannot guarantee the model will not recommend hot-glueing a MIDI port.

## **ITEM 1B. UNRESOLVED STAFF COMMENTS**

None. The SEC has not returned our calls.

## **ITEM 2. PROPERTIES**

The Company leases no physical properties. Principal assets consist of a laptop, one or more USB-to-MIDI cables (management recommends Roland UM-ONE or iConnectivity mio), and cloud hosting accounts. Fair value of physical property: immaterial, slightly sticky.

## **ITEM 3. LEGAL PROCEEDINGS**

The Company is not a party to any material legal proceedings. Informal proceedings continue with the user's synthesizer regarding Write Protect switches.

## **ITEM 4. MINE SAFETY DISCLOSURES**

Not applicable. We mine patches, not coal.

## PART II

### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

There is no public market for membership interests in Half Radiation LLC. The Company has never declared or paid cash dividends. Management intends to retain all \$57.51 of earnings for growth, ramen, and domain renewals.

### ITEM 6. [RESERVED]

Reserved for future revenue large enough to require a bar chart.

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our financial statements and the related notes thereto included elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements involving risks, uncertainties, and the phrase "we will definitely get ten customers."

#### Overview of Fiscal Period

The Company was founded on May 31, 2026. This report covers our first partial fiscal period through June 28, 2026. On June 24, 2026, we acquired our first paying customer, an event internally codenamed "THE CHOSEN ONE ARRIVES."

#### Results of Operations

Gross revenue for the period was \$60.00 from 1 charge(s). Total payment processing and platform fees were \$2.49, comprising activity fees of \$2.04, additional Stripe fees of \$0.42, and tax of \$0.03. Net income was \$57.51, representing a net margin of 95.9%, which management believes is acceptable for a software company that has not yet paid for accounting software.

| Metric                 | Amount  | % of Gross |
|------------------------|---------|------------|
| Gross charges          | \$60.00 | 100.0%     |
| Stripe activity fees   | (2.04)  | 3.4%       |
| Additional Stripe fees | (0.42)  | 0.7%       |
| Tax                    | (0.03)  | 0.1%       |
| Net balance change     | \$57.51 | 95.9%      |

#### Liquidity and Capital Resources

Cash held in Stripe balance at period end: \$57.51. Total payouts to bank accounts: \$0.00. The Company believes current liquidity is sufficient to fund operations for approximately 1.4 Roland UM-ONE MIDI interfaces or two months of basic hosting, whichever comes first.

#### Critical Accounting Estimates

Revenue is recognized upon successful Stripe checkout. Lifetime licenses are recognized in full at point of sale because management has not read ASC 606 and hopes lifetime means lifetime.

#### Non-GAAP Financial Measures

Management tracks Adjusted EBITDA by adding back Stripe fees, domain regret, and emotional damage from reading Gearspace threads. Adjusted EBITDA for the period approximates gross revenue.

## ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

**Interest Rate Risk.** Immaterial. Cash earns zero interest in Stripe balance.

**Foreign Currency Risk.** The Company offers EUR, GBP, CAD, and AUD pricing. Exposure is limited because period revenue was 100% USD.

**SysEx Transmission Risk.** Buffer overflow on 8-bit synth CPUs may corrupt dumps. The Company throttles transmission with 60ms pauses. Qualitative assessment: better than MIDI-OX defaults.

## NOTES TO FINANCIAL STATEMENTS

### Note 1 — Organization and Basis of Presentation

Half Radiation LLC was organized as a New Mexico LLC. These financial statements are prepared on an accrual basis using US GAAP as understood by a solo founder who watched one YouTube video about accounting.

### Note 2 — Summary of Significant Accounting Policies

Revenue recognition: upon Stripe payment success. Lifetime licenses: no expiration modeled. SysEx blobs: stored as hex in PostgreSQL.

### Note 3 — Revenue Disaggregation

During the period, all \$60.00 of revenue originated from Stripe charges in the reporting window June 1–28, 2026.

### Note 4 — Stripe Balance Reconciliation

Per Stripe Balance Summary: starting balance \$0.00; account activity before fees \$60.00; fees (\$2.49); net balance change \$57.51; payouts \$0.00; ending balance \$57.51.

### Note 5 — Income Taxes

The Company has not computed provision for income taxes in these statements. Consult a cross-border CPA. We beg you.

### Note 6 — Subsequent Events

Management is aware of additional customer activity after period end, including transactions occurring on or about June 29, 2026, outside this reporting window. Such events are not adjusted herein.

### Note 7 — Going Concern

Management believes going concern is appropriate because \$57.51 exceeds the cost of zero and the product works on a Juno-106 when cables are correct.

### Note 8 — Concentration of Credit Risk

Financial instruments that potentially subject the Company to credit risk consist principally of cash held at Stripe. The Company has no diversification strategy because diversification requires multiple customers.

### Note 9 — Commitments and Contingencies

The Company leases no facilities. Commitments include annual domain renewal, cloud hosting, Resend SMTP, PostHog, and OpenRouter API usage for FAQ chat. Total committed future spend: management has not calculated and prefers not to.

### Note 10 — Fair Value Measurements

Cash is carried at Stripe balance fair value (Level 1: observable in dashboard). SysEx hex strings are Level 3 unobservable inputs unless you can hear the difference.

### Note 11 — Related Party Transactions

The sole member may use the product without charge. No formal transfer pricing policy exists.

### Note 12 — Segment Information

The Company operates as one reportable segment: Browser-Native Vintage Synth Cloud Librarian. Geographic revenue: 100% USD in period. Synth geographic revenue: unknown until user selects synth model.

**Note 13 — Stock-Based Compensation**

None. Compensation is existential.

**Note 14 — Earnings Per Unit**

Basic and diluted net income per membership unit: \$57.51. Weighted average units: 1.

**Note 15 — Recently Issued Accounting Pronouncements**

Management has not adopted any new FASB standards because management has not read any new FASB standards.

## **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

None. Absolutely Nobody LLP has served since inception.

## **ITEM 9A. CONTROLS AND PROCEDURES**

Disclosure controls: PostHog, Discord webhooks, and reading Stripe email alerts. Internal control over financial reporting: a Google Sheet that may or may not exist. Management concluded controls are effective because nobody has stolen \$57.51 yet.

## **ITEM 9B. OTHER INFORMATION**

None required under Rule 14a-12, unless you count this entire filing.

## **ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS**

Not applicable. Our foreign jurisdiction is the cloud.

## LETTER TO STAKEHOLDERS

(Not required by the SEC. Included because we have the PDF open.)

Dear Person Who Owns a Juno-106,

When we incorporated Half Radiation LLC on May 31, 2026, we did not anticipate filing a Form 10-K twenty-nine days later. Yet here we are, reporting \$57.51 in net income and one (1) charge in Stripe.

Our thesis remains unchanged: vintage synthesizers outlive their backup utilities. MIDI-OX runs on operating systems that should be in museums. Snoize is a memory. Your patches should live in the cloud, not on a floppy disk labeled FINAL\_FINAL\_v3.

Operationally, we shipped Web MIDI ingestion, dual lifetime pricing, regional EUR/GBP/CAD/AUD checkout, FAQ chat, business-email Studio routing, and two demo videos that do not morph cables mid-loop. We removed fake live counters because honesty is a competitive advantage when your revenue fits in a tweet.

Financially, gross revenue was \$60.00. Stripe took \$2.49. We retained \$57.51 in platform balance and paid out \$0.00 to a bank account, because moving money is the second-hardest part of running a company after parsing Casio CZ nibbles.

Looking ahead, we will not project hockey sticks. We will backup patches, answer Gearspace threads, and pursue ten paying customers so we can stop eating discount instant noodles. If you are reading this and you own a DX7, please consider knob.monster+. If you are the SEC, this is satire.

Sincerely,

Chief Knob Officer

Half Radiation LLC

## SCHEDULE II — REVENUE BY PRODUCT LINE

| Product / SKU                        | Gross      | Share of revenue |
|--------------------------------------|------------|------------------|
| knob.monster+ Personal (\$39 list)   | See Note 3 | TBD              |
| knob.monster+ Studio (\$399 list)    | See Note 3 | TBD              |
| Legacy subscription (deprecated)     | \$0.00     | 0%               |
| Monster Shop merchandise (pre-order) | \$0.00     | 0%               |
| Total per Stripe charges             | \$60.00    | 100%             |

Note: Stripe reports aggregate charge amount for the period. SKU-level attribution requires checkout metadata review. Management believes the single charge relates to a lifetime license.

## SCHEDULE III — SUPPORTED SYNTH PLATFORMS (OPERATIONAL METRICS)

| Platform                       | Parser status | SEO landing page |
|--------------------------------|---------------|------------------|
| Yamaha DX7 / TX family         | Production    | Yes              |
| Roland Juno-106                | Production    | Yes              |

## SUPPLEMENTAL DISCLOSURES — NON-GAAP RECONCILIATION

| Measure                                   | Amount         |
|-------------------------------------------|----------------|
| Net income (GAAP)                         | \$57.51        |
| Add: Stripe fees                          | \$2.49         |
| Add: Domain regret (non-cash)             | Not quantified |
| Add: Carbon offsets (certified by nobody) | \$0.00         |
| Adjusted EBITDA (Non-GAAP)                | \$60.00        |
| Meme-adjusted ARR                         | \$720.00       |
| Fully diluted goblins outstanding         | 0              |

Non-GAAP measures are not prepared under GAAP and should not be compared to companies that have revenue.

## PART III

### ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Sole Member of Half Radiation LLC:

### Opinion Disclaimer

We are Absolutely Nobody LLP, an imaginary firm of independent registered public accountants. We have not audited anything. We reviewed the Stripe dashboard screenshot and concluded the numbers look Stripe-shaped.

In our opinion, based on nothing resembling generally accepted auditing standards, the financial statements present fairly, in all material respects, the financial position of Half Radiation LLC as of June 28, 2026, and its results of operations and cash flows for the period then ended, assuming Stripe is telling the truth.
